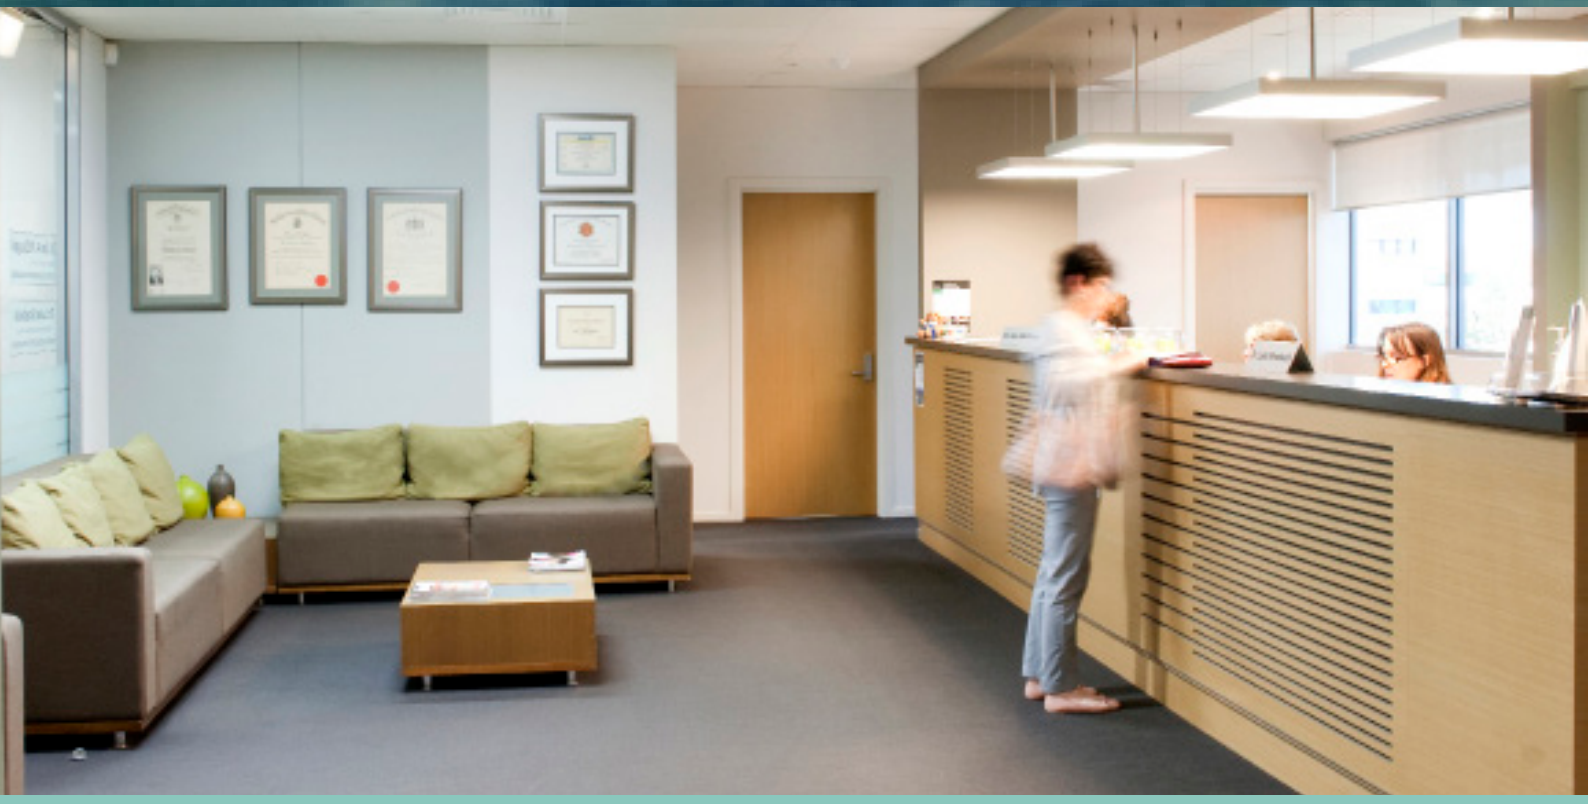
Dr Luke Stradwick

Plastic Surgery



What to Expect Guide

What to expect

This guide provides an overview of the experience you can expect with Dr Luke Stradwick.

Dr Stradwick is a perfectionist. He has an innate drive to seek perfection in everything he does and he is one of the most qualified and experienced plastic surgeons on the Gold Coast.

Dr Stradwick is ably assisted by a team of dedicated staff. Your first contact at Dr Stradwick's office will be with Lisa, Lorna or Sarah, his patient educators. Their role is to answer your questions and educate you about your chosen procedure.

1 Booking an appointment

Talk to one of our courteous, approachable and friendly staff via email or phone and organise a suitable appointment time for you. Dr Stradwick's team is always discreet, helpful and will treat you with respect and courtesy. All staff are experienced and can answer any general questions you may have about your procedure of interest.

What to Expect Guide

2 Your first consultation

Dr Stradwick will make you feel comfortable and relaxed, he will listen to your concerns and offer various treatment options. He prides himself on always being open and honest and not a “salesman”. For breast augmentation procedures, you will have the opportunity to see projected results using the 3D Vectra technology on your own image.

3 Day of surgery

Ahead of your surgery date, Dr Stradwick’s team will prepare you with the paperwork required for admission and advise pre and post op instructions. Our hospital is a fully accredited facility with the latest technology. Dr Stradwick works with specialist anaesthetists who are all very experienced and committed to your safety. A professional and friendly team of nurses are on hand to help make the day as relaxed and comfortable as possible for you.

4 Post operative care

Dr Stradwick and his team have proven processes in place to ensure you are always cared for in a timely manner. Following your procedure and departure from hospital, you will be given post operative care instructions. You may receive a follow up phone call from our team to ensure you are progressing well, in the lead up to your follow up appointment. In your initial post op appointment a qualified and experienced nurse will remove any sutures and ensure that you are recovering as expected. In addition, some procedures may require a further consultation with Dr Stradwick.
